

Who we are

We are problem solvers: manufacturers' representatives work hard to earn trust and become a resource as problem solvers.

What we do

We represent numerous and complementary products and services. By representing multiple companies, we offer several problem solutions and operate as business operators in sales, not as salespeople in business.

Value we add

We offer the customer numerous solutions to their problems. The customer spends far less time working with a manufacturers' rep than with several direct salespeople. People buy from people they know and trust. Manufacturers' reps work hard to earn reputations as trusted problem solvers.

OEM Metal & Plastic Machined Components, Assemblies – Product Manufacturing Team

AS9100D + ITAR CMMC2

Representing local IL, WI, IN, MN CNC Machine Centers for CNC High Precision Machine Parts

- CNC Turning/Milling Centers • 2 & 3 Axis, 5 Axis up to 12 Axis • Wire EDM, RAMEDM with Robotic Lights out Production
- Horizontal & Vertical + CNC Lathe • Swiss CNC & CAM Equipment
- Multi Spindle Screw Machining • Robotic Machining Cells
- CNC Machine Castings – Ductile Iron & Aluminum – Forgings
- Aerospace 5 Axis – AS9100 + NADCAP
- Escomatic Swiss Wire Fed Machines

PacCNC
Manufacturer of High Quality Stampings

CERTIFIED TO IATF 16949:2016

Grand Rapids, MI

Pac CNC is an employee-owned business founded in 1986. We specialize in small to medium size stampings using various types of materials.

Aluminum • copper • beryllium • copper • brass • phosphor bronze • stainless steel, nickel • clad metals • OHMALOY 30 • high and low carbon steels and pre-plated materials. All production and prototypes are tooled in-house.

Stamping – 10 to 200 ton - Multi-Slide & Four Slides

55,000 Square feet of Production space

Thickness up to 4MM - .157 - up to 12" Wide

Intricate Micro Stamping to Large Stout

INJECTION MOLDING
AS9100 + ITAR – CMMC2 – FACILITY

Core Capabilities

- Custom Injection Molding - High-volume and short-run production
- Tooling & Mold Design - In-house tool room with precision capabilities
- Over molding & Insert Molding - Multi-material and metal/plastic combinations
- Prototyping Services - Rapid iterations to production
- Assembly & Packaging - Value-added services for complete solutions

Material Expertise

- ABS, Polypropylene, Nylon, Polycarbonate
- ABS, Polypropylene, Nylon, Polycarbonate, TPU
- Filled Materials: Glass, Metal, Carbon, Silica
- High Heat – Peek, Radel, Stanyl, Ultern
- Molding Capacity: 80T-800T
- High-Heat Thermoplastics
- Bio-Based & Recycled Materials
