

## Customized Silicone Solutions

### *Design Through Production – Jamak Provides Each Buyer Peace of Mind*

Jamak's long history in the rubber industry has led to worldwide expertise with manufacturers and suppliers. Our in-house team can source and transport any materials needed for your projects, and we regularly audit our suppliers to ensure we're sourcing only the best for our customers.

Relying on 50 years' worth of global relationships in a vast arena of manufacturing, including plastics, black rubber, metal, and other components, Jamak will facilitate the sourcing and delivery of all needed parts to complete your product.

From concept to completion of a finished product, our turn-key operation can solve all elements of your design, technology, manufacturing, packaging, and distribution needs.

#### Sourcing & Logistics Capabilities

- Large Variety of Plastics
- Various Molding Capabilities
- Extruded Products
- Inventory Management
- Logistics Management
- Assemblies
- Rubber to Metal Bonding
- Engineering, Design, & Development

#### Sourcing & Logistics Applications

- O-Rings
- Oil Seals
- Diaphragms
- Grommets & Spacers
- Vibration Dampening
- Over-Molding
- Gaskets
- Tubing & Hoses
- Clip and Glue Gaskets
